Conducting

Post Graduate Training Program in Garbhasanskar Antenatal Program- e-COURSE ONLINE TRAINING –

Batch 15th

24th AUG 2021

Garbhasanskar & Supraja Nirmetee is a process which helps and guides a couple to get a healthy progeny. Couples with healthy body & mind elements can give birth to a healthy baby. It is well defined in ancient systems of Indian medicine, how a couple can get healthy baby, which is healthy by body and mind. Beeja sanskar (process for couples before a lady becomes pregnant) and Garbhasanskar (Process after a lady gets pregnant) are the two processes which help couple to deliver a healthy baby. These practices are well practiced in the society by various doctors in their own way. It's a need of the society to standardize the process so that these processes are practiced in a uniform way. The main motive of this training program is to make aware and teach the standardized protocols for the process of **Garbhasanskar Antenatal Program**. This training program will help all the practitioners to understand the standard process of Supraja Nirmetee & Garbhasanskar and implement it in their day to day practice.
